MANUFACTURERS WHO MAY BE ABLE TO SUPPLY HEXACHLORETHANE TABLETS
AND WIRE CLIPS FOR USE IN PROTECTION OF GREEN CORN EARS FROM THE
CORN EARWORM

Although neither the tablets nor the clips are yet in commercial production (May, 1939), the following list of manufacturers who may be able to supply them is furnished in order to render all possible aid to sweet corn growers who may wish to secure them. The Department does not guarantee or endorse these firms or the reliability of their products. In furnishing this list no claim is made that it is complete and no discrimination is intended against any manufacturers not included.
